Re: Kimball Corporate Headquarters Landscaping

Dear Dallas:

Many many thanks to you and the entire professional staff of the Dallas Foster team. In 1997 we asked you to give us a new look at Kimball International. At the time we were interested in accenting our newly-renovated headquarters building. Little did we know that we would be accenting the quality of life of many individuals working in and visiting our headquarters.

Here we are today, with 10 seasons having passed, and the accomplished mission continues to live. We continue to receive complimentary comments from the many visitors to our headquarters, as well as employees, customers, and suppliers, on the beautiful landscaping.

It is also heart-warming to see that the artistic skill of your design has served not only Kimball well but also has served Landscapes by Dallas Foster, Inc. well, with expanded business in the area.

Pat, my wife, reminds me at times that, "when it is all said and done, we are but a voice and a memory", with the implied intent being to use one's voice carefully and beneficially. The artistic skill of your design and planting has served for many years not only to accomplish that life dream, but to do so with direct involvement of all the senses, for an enhanced voice of smell, visual, and physical. The spring days are extra enjoyable, as I'm sure the summer, fall, and winter to come will be also, because of the Dallas Foster team.

I would also like to compliment you on the professionalism of your staff and your leaders. They are very capable and committed to accomplishing their jobs with a great deal of flexibility and innovation. For 10 years, they have continued to monitor and maintain the beauty and serviceability of our landscaping.

We at Kimball wish you health, happiness, and success in your business. We hope that 2007 and beyond are prosperous years for you, your company, and your family. We look forward to continuing to work with your team in the future. Thanks, Dallas. Take care.

Sincerely,

KIMBALL INTERNATIONAL
